DETAILED ACTION

Response to Amendment

The Amendment, filed on November 3, 2003, has been entered and acknowledged by the Examiner.

Cancellation of claims 1-5 has been entered.

Claims 6-12 are pending in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification,

At page 1, the sentence that was inserted on a separate line immediately after the title by the Preliminary Amendment filed on November 3, 2003, has been amended as follows:

--This application is a divisional of Application No. 09/553,745, filed April 20, 2000, now U.S. Patent No. 6,674,236, issued January 6, 2004.--

In the claims,

Claim 6, line 9, replace the term "then" with --than--.

Allowable Subject Matter

Claims 6-12 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 6, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 6, and specifically comprising the limitation of forming a multilayer structure comprising a colored paste layer in which crystallization glass that is crystallized at a temperature TA and a coloring agent are diffused, and a non-colored paste layer in which a glass powder has a softening point temperature TB, higher than the temperature TA, and heating and burning the multilayer structure to a temperature TC, higher than the temperature TB and lower than the softening point of the crystallization glass powder after the crystallization thereof, so as to form the non-colored glass layer and the colored glass layer simultaneously.

Regarding claims 7-12, claims 7-12 are allowable for the reasons given in claim 6 because of their dependency status from claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Prior Art Cited

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
